Fellowship in Learning

Robb College provides a vibrant, supportive home-away-from-home for residents from both city and country locations. Our residents are enrolled in a wide range of UNE's disciplines, particularly in areas of agriculture, business, law, nursing, and education. Robb residents belong to a strong college community where academic endeavours are balanced with our renowned social events and sporting achievements.

Liveable Lifestyle

At Robb you will live in your own single study bedroom that you can make your own. Student rooms are well heated in winter and include king single beds, ample storage space, a large desk, large windows and free NBN broadband internet access. All of our residential floors have shared bathrooms, kitchenettes and common room facilities.

You will have access to our onsite gym and membership of the UNE Sports Union complementary for all Robb residents.

TV's, comfortable couches and chillout spaces are available throughout the college. Pool tables, BBQ's, study spaces and two large courtyards make Robb the first choice for your second home while completing your studies.

Fabulous Food

Robb residents have lunch and dinner 5 days a week prepared by an experienced team lead by fully qualified chefs. Meals include a vegetarian option and the team provide a range of meals to meet a range of dietary requirements.

A central communal kitchen and kitchenettes on each floor are available for residents to prepare additional meals and snacks.

The college community puts on their academic gowns and comes together throughout the year for both Formal and Fellowship dinners. At these dinners we hear from invited speakers and celebrate the academic, sporting and community achievements of our residents.

Community, Charities and Culture

Community service and contribution is central to the Robb college experience. Senior students develop their leadership, communication and management skills by taking on leadership roles which build the college experience for their fellow residents.

Charities benefit every year from our fund-raising activities. Money is raised from everything from selling chocolates, trivia nights, our special calendars and cookbooks and events such as the annual long lunch and parent's weekend. It is common for the college to raise \$50,000 annually for important charities.

Friends Forever

Academic Achievement

At Robb every student has the opportunity to maximise their academic potential. We have a team of dedicated Resident Leaders and Academic Mentors that support the academic endeavours and pastoral care of the Robb community

“*Nerd Night*” is held every week and focuses residents on academic achievement. Residents come together in the dining hall for peer support and tutorials organized by the Academic Mentor team.

Our Senior Common Room members (SCRR), some of which are current UNE academic staff, also assist with advice on assignments and skills such as exams, essay-writing and giving industry specific presentations and workshops.

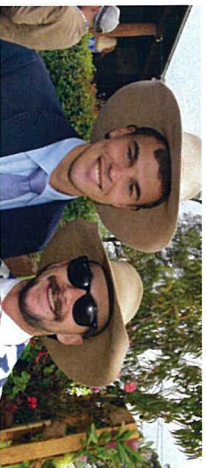

Sporting Spirit

Robb residents are renowned for their sporting participation and drive. This spirit is seen in the annual series of first year Rugby, Netball and Hockey matches against our eternal rival, St Albert's College.

If Robb does not have a team in your chosen sport we can link you into a local competition. A number of our residents bring their horses to Armidale with them, which use local agistment on nearby private properties.

Future Focus

When you leave Robb, you will take with you more than your awarded qualification. The Robb experience will give you the opportunity to take with you a range of skills, experiences and connections that will make you a better prospect for any future employer.

Mates & Memories

Contact Us

There are plenty of people at UNE to help you. If you have any questions, we have a number of channels available to you so that you can get the answers you need.
