

My name is Will Archer and I am from a property near the town of Goondiwindi on the NSW/QLD border where I have grown up alongside two of my brothers, one of which is my twin brother who is also attending Robb College.

I attended boarding school in Brisbane at Churchie and graduated in 2017 and went on to live and work for two years on a large cattle station in the Gulf of Carpentaria.

The degree which I have chosen to study is a Bachelor of Agribusiness which I selected due to my interests in business and economics.

Living at Robb has created many great opportunities through meeting new people from a variety of different backgrounds and places. I have made many new close friends and I have really enjoyed the sporting opportunities especially rugby along with other activities and social events.

In the future I would like to go abroad and work overseas in agriculture and also ultimately work in Northern Australia.

Thank you for the opportunity to study at Robb College.
